

CNMS/CIR/D/_21-22/26

Date: 23rd September, 2021

Sr. Kg to Std.VIII

Dear Parents,

Climate change is now affecting every country on every continent. It is disrupting national economies and affecting lives, costing people, communities, and countries dearly today and even more tomorrow.

Look around us and you will observe weather patterns, rising sea level, forest fires, landslides, floods, and more extreme weather events. To support the environment and make the world a safe place for our future generations, CNM school will be participating in the project '**CLIMATE ACTION PROJECT**'. It is a **6-week** program beginning for **K-12** students and over **5 million students** are participating from over **142 countries**. The project has been supported by WWF, UN, Jane Goodall Institute, and NASA.

As part of the six-week program, students will:

1. Explore causes of climate change through comprehensive curriculum co-authored with WWF
2. Participate in class-to-class virtual exchanges to share perspectives and exchange potential solutions
3. Plant trees and send a message to Mars through collaboration with NASA
4. Join for Climate Action Day, an online celebration of over 100,000 students.

Let's join hands with the global community to act for the planet and environment and encourage our children to examine, inquire and innovate the means & ways to understand the need of the hour in climate changes.

Thanking You.

Yours faithfully,

For C.N.M.S SCHOOL & N.D PAREKH PRE-PRIMARY SCHOOL.

(Mrs. Kavita Sanghvi)

Principal.
