

# Climate change 2

# How can I build on prior learning to connect to new ideas

We could have air cars and the wastewater could go from a pipe and into the water clean machine

How is climate change impacting my local community?

Climate change affects human health and wellbeing through more extreme weather events and wildfires, decreased air quality, and diseases transmitted by insects, food, and water.

How can accessing multiple perspectives provide a new direction for

action?

It is important to look at topics from multiple perspectives so **that we are able to see the whole picture**, which better enables us to find the root cause of the problem and discover a solution that takes the needs and feelings of everyone involved into consideration.
